SUPPLIER & MILL OPERATING STANDARD

Preliminary Contract (PC) Module Supplier & Fabric Mill Guidebook

Advance Manufacturing Reservation, Technical Review, Acceptance Protocols & PO Transition

---

Issued to: Fabric Mills, Textile Suppliers & Export Sales Teams
Platform: PT Mega Perintis Tbk • Vendor Portal Preliminary Contract Subsystem
Document Reference: SOP-PC-VND-2026-V1 • Effective Date: November 2026
Language: English (APAC Regional Sourcing Standard)

1. PURPOSE & MANUFACTURING PROTOCOL

A **Preliminary Contract (PC)** is a binding commitment issued by PT Mega Perintis Tbk to secure fabric manufacturing capacity, raw yarn allotments, and weaving/knitting production slots ahead of seasonal garment manufacturing.

> **CRITICAL MANUFACTURING NOTICE — APACS SOURCING RULE:**
> A Preliminary Contract authorizes **raw yarn booking, spinning, and greige weaving/knitting**. **Bulk dyeing and finishing must strictly await the official Purchase Order (PO)** containing finalized color breakdowns, quantities, and approved lab dips/shadebands.

2. ACCESSING THE VENDOR PORTAL

1. **Portal URL:** Access the Vendor Portal via the secure URL provided by PT Mega Perintis Tbk.
2. **Credentials:** Log in using your registered supplier email address and authorized credentials.
3. **Navigating to Contracts:** In the primary sidebar menu, click **"Contracts (PC)"**.
4. **Notification Counter:** When a new Preliminary Contract is assigned to your mill, a counter badge will appear on your navigation bar.

3. NAVIGATING CONTRACT STATUS TABS

The Preliminary Contract register is organized into four distinct operational tabs:

STATUS TAB	DESCRIPTION	SUPPLIER ACTION REQUIRED
New / Review Required	Contracts recently issued by PT Mega Perintis merchandisers and awaiting your review.	**Immediate Review** (within 3 business days).
Confirmed	Contracts accepted by your mill. Bilateral digital timestamps and sealed PDF generated.	Lock production capacity & initiate yarn procurement.
Queried	Contracts where your mill requested technical, commercial, or delivery date adjustments.	Awaiting review by PT Mega Perintis sourcing team.
Contract History	Archived repository of all historical, amended, and superseded agreements.	Read-only reference and official PDF reprints.

4. TECHNICAL SPECIFICATIONS REVIEW

Click on any contract reference (e.g., `MPG/PC/PDV/26/X/451`) to open the **Contract Workspace**. Thoroughly inspect each operational section:

4.1 Commercial Header & Logistics

- **Contract Reference:** Unique agreement identifier for all shipping documents.
- **Season & Brand:** Assigned target brand collection (e.g., *CARDINAL JEANS FALL'26*).
- **Currency & Credit Terms:** Currency (USD, CNY, EUR, IDR) and agreed payment terms (LC, TT, CBD).
- **Incoterms & Port:** Delivery baseline (e.g., *FOB Shanghai — Sea Freight* or *CIF Jakarta*).

4.2 Fabric Technical Specifications Table

SPECIFICATION	MILL VERIFICATION RESPONSIBILITY
Item Code & Construction	Verify yarn count, weave/knit construction, and composition (e.g., 100% Cotton, TC, CVC).
HS Code (Customs)	Ensure the 8-digit Harmonized Tariff Schedule matches your export declaration documentation.
Color / Batch Code	Verify lab dip code or color reference against your shade development library.
Cuttable Width & GSM	Ensure finished width meets minimum usable requirement (e.g., 57/58") and density tolerances.
Volume & Unit Price	Confirm booked yardage/meterage and contracted price per unit.
Tolerance Window	Note the permissible over/under delivery tolerance (standard: ±5.00%).

4.3 Delivery Milestone Schedule

Inspect the phased delivery dates. Confirm that yarn spinning, greige weaving, and buffer lead-times align with the requested FOB/CIF readiness windows.

MANDATORY PRE-SHIPMENT QUALITY OBLIGATIONS:
All contracted fabrics are subject to standard compliance protocols prior to vessel dispatch:

- **Mill Internal Test Report:** Colorfastness (washing, rubbing, light), tensile/tear strength, shrinkage (±3%).
- **Shadeband Submissions:** Minimum 3 sets of physical swatches (A/B/C lots) submitted for shade approval.
- **100% 4-Point System Inspection:** Internal inspection report showing defect score ? 28 points per 100 sq yards.
- **Third-Party Pre-Shipment Inspection:** SGS or nominated inspection agency sign-off prior to release.

5. ACTION PROTOCOLS: ACCEPT VS. QUERY

Suppliers must formally respond to newly issued contracts within **three (3) business days** of receipt.

OPTION A Accept Contract (Capacity Confirmed)

1. Confirm all technical parameters, pricing, and scheduled dates are fully achievable.
2. Click the green **"Accept Contract"** button at the bottom of the page.
3. Review and confirm the acknowledgement modal dialog.
4. **System Result:**
    - The contract immediately transitions to **"Confirmed"**.
    - A digital audit signature (User Name, Mill Name, Timestamp, IP Address) is permanently sealed.
    - The official signed contract PDF is generated and made available for instant download.
    - PT Mega Perintis merchandising team is alerted to proceed with PO allocation.

OPTION B Query Contract (Request Adjustment)

If your mill encounters technical constraints, delivery date conflicts, or pricing differences:

1. Click the amber **"Query Contract"** button.
2. In the query dialog, provide detailed, constructive remarks detailing:
    - Specific line item number or milestone date in question.
    - Reason for constraint (e.g., yarn lead time, MOQ limitation, holiday shutdown).
    - Counter-proposal with feasible target date or technical specification.
3. Click **"Submit Query"**.
4. **System Result:**
    - The contract transitions to **"Vendor Queried"**.
    - The PT Mega Perintis buyer receives your detailed remarks.
    - Once aligned, the buyer will issue a formal revised contract (Revision 1, 2, etc.) for final confirmation.

6. OFFICIAL CONTRACT PDF DOWNLOAD

At any stage, you can click the **"Official PDF"** button on the top-right toolbar to download a publication-grade PDF contract. This document includes:

- PT Mega Perintis corporate letterhead, registration number, and tax identity.
- Complete matrix of technical fabric specifications, tolerances, and price schedules.
- Comprehensive pre-shipment quality and testing protocols.
- Bilateral digital signature blocks with verification stamps.

7. TRANSITION TO PURCHASE ORDERS (PO)

Upon garment style finalization, PT Mega Perintis will issue specific **Purchase Orders (POs)** linked directly to your Preliminary Contract. You will receive email notifications and will manage dyeing, finishing, and shipment lots against the PO.

8. SUPPLIER SUPPORT & ENQUIRIES

For inquiries regarding specifications, delivery rescheduling, or portal support:

- **Fabric Procurement Division:** `procurement@megaperintis.co.id`
- **Direct Merchandiser Contact:** Refer to the buyer listed on the contract header.
- **Technical Helpdesk:** Contact your designated PT Mega Perintis sourcing representative.
